

# We'll always treat you and your legacy with respect

- We understand your Will is personal, and for many people, family and friends should come first.

---
- It's up to you whether you tell us about your Will – but we would love to thank you properly and we'll always respect your privacy.

---
- Your gift will always be used where it's needed most, so it has the greatest impact on young people.

---
- We will use your gift carefully, efficiently and cost effectively.

---
- Whatever you're able to give, we'll treat your very special gift with sensitivity and respect.

---
- You can change your mind about a gift in your Will at any time in the future.

---
